

## Computer Connect Kit/Half Duplex Adaptor

#54-115-333: Computer Connect Kit. Fowler's Simplex Computer Connect Kit is used with most Fowler products that feature Direct RS-232C output allowing connection of the tool to any computer or printer without the need of an interface.

The kit includes 80"(2m) connecting cable with 9 pin IBM compatible, 9/25 pin adaptor, support disk and instruction book.

The support disk is supplied with our new **GageWedge software** which allows direct data input into any Windows application such as Excel, Word or 123. This time saving software will work with any instrument using the optoRS cable. The disk also includes the Opto-RS Demonstration Software which allows you to view the instrument data in several ways. Opto-RS also provides simple SPC statistics and saves data in an ASCII File.

#54-115-333 Computer Connect Kit provides simplex (one-way) data communication for the gages listed below.

Products using Connect Kit:

- All Ultra-Cal III Calipers including Ultra-Gold, Heavy-duty and Groove Gages
- All OEM Scales Promax Snap-Cal
- All Ultra-Digit Mark IV and V Indicators
- Microcal, HelioRapid and Snap Mike
- All Bowers Hometric II; Portable Bore Gage II, SuperBore Pistol Grip, DepthMatic, Magna-Check, Digital Cylinder Bore Gages and Universal Gage
- All Ultra-Cal and Sylvac Depth Gages
- Trimos Mini-Vertical II; Tool Presetter II and Ultra-Heights.

#54-115-334 Half duplex adaptor. Half duplex adaptor adds bidirectional RS232 capability to many Fowler products.

- It also allows the connection of a pedal (with standard Sylvac connector) to carry out data requests.

Additional capability includes sending preset, tolerance, mode and print requests and more from the PC to the instrument. The gage may be completely controlled by the PC!

Products using Half Duplex Adaptor along with Connect Kit:

- Trimos units: Mini-Vertical Series II; Presetter Series II
- Ultra-Digit Indicators: Mark V series.
- Bowers Hometric Mark II, Depthmatic, Mark II Bore Gages, Digital Cylinder Bore Gages, Universal Gage
- HelioRapid, Snap-Mike

#54-115-336 Duplex Computer Connect Kit. Combines #54-115-333 cable and #54-115-334 adaptor into one low cost cable.

▲ These symbols appear on pages with products that feature RS232C.

Longer Opto RS-232 cables are available in lengths up to 50' (15m). Contact our Technical Department for more information.

**All kits now include GageWedge for direct gage input to any windows application!**

Order No.	Description
54-115-333	Simplex computer connect kit with GageWedge
54-115-334	Half duplex adaptor for use with 54-115-333
54-115-336	Duplex computer connect kit with GageWedge
54-115-337	BS/SP1 adaptor
54-115-338	Simplex Computer Connect Kit with Footswitch and GageWedge
54-115-515	120v External Power Supply (is for Horizontal gages such as calipers)
54-115-516	120v External Power Supply (is for Vertical gages such as indicators)
54-115-517	120v External Power Supply (is for Heavy Duty gages such as 54-110 series)
54-618-165	Footswitch (requires 54-115-334)
