

Fowler

Ultra-Slite Aluminum Vernier Caliper

Parallax Free

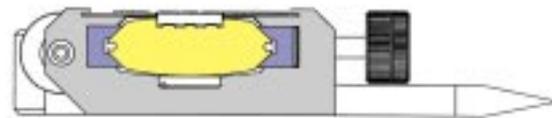

The aluminum vernier caliper from Fowler/Helios offers the same lightweight hard anodized aluminum construction as the aluminum electronic caliper. As a result, these workshop calipers are extremely easy to handle.

- Aluminum alloy guideway
- Measuring surfaces: stainless steel precision ground
- Locking screw on top
- Measuring jaws 4"/6"(150mm)
- Reading: .001"/.02mm
- Measuring surfaces hardened to 53 HRC
- Parallax free

Fowler Helios

Jaws positioned behind guide for easy measurement of flat parts
