

## "One Rev" Calipers

*"Swiss style" calipers 52-008-004, 009 and 013 come with a black stylized face with orange needle and a covered rack .*

Dial faces on Fowler's "Swiss Style" and Carbide Dial Calipers—combines widely spaced microfine graduations, the protection of a covered rack and the accuracy of a hardened stainless steel rack.

- Dial hand completes one revolution per each .100"; large dial—easy to read graduations.
- Inverted covered rack prevents dirt accumulation in rack gear teeth. Self-contained movement eliminates gear misalignment.
- Exclusive dual pinion drive mechanism reduces wear on rack and pinion.
- Beam graduated in .10" increments.
- Thumbroll for rapid setting.
- Hardened stainless steel throughout with measuring faces precision ground and microlapped for exceptional accuracy.
- Knurled lock assures precise settings.
- Accuracy = .001" per 6".
- Adjustable dial reads directly to .001".

**N**ew 6" Carbide Dial Caliper #52-008-777 features top and bottom jaws with solid carbide inserts for extra long wear and durability.

- Scale surface is satin chrome finished to prevent glare, reduces operator fatigue; microfine graduations read in inches.
- Four-way jaw for outside, inside, depth and step measurements. Jaws ensure squareness and perfect alignment.
- Price includes fitted case.
