## Digitrix II: Spline Micrometers

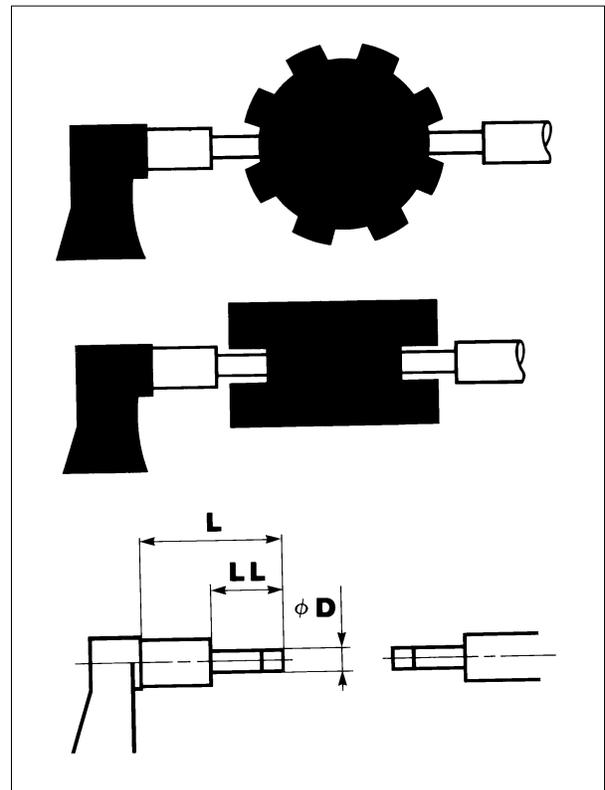

▲ No. 54-910-251 Digitrix Spline Micrometer

"Spline" design anvil and spindle combine all the advantages of Fowler Digitrix II Micrometers.

The Fowler "Spline" style Digitrix II is an exceptionally useful tool for measuring recesses, splines, grooves, areas of cutting tools and similar normally difficult to reach and measure areas.

The Digitrix II Advantage:

- Includes all the features of the original Fowler Digitrix II Computerized Micrometers.
- Resolution to .0001" (.001mm), plus the .00005" indicator. Large LCD digital display.
- Carbide tips, satin chrome finish, ratchet thimble, locking knob, deluxe wooden case and batteries are included. Sizes over 1" (25mm) include setting standards.
- Accepts all Fowler Digitrix II accessories including computer interfaces.
- Uses 2 #54-902-110 batteries (included).
