

#52-225-220

The Fowler Digit Depth Micrometer features a digital counter for faster and more accurate readings. A ratchet thimble ensures consistent readings.

#### Special Features:

- Accuracy from .0003" (.008mm)
- Microfine graduations .001" (.01mm).
- Base constructed of tool steel, hardened, precision ground and microlapped.
- Available in inch and metric.
- The threads are hardened, ground and lapped for accuracy.
- The rod, which is interchangeable, is adjustable in either direction.
- Rod diameter .168" (4.25mm)
- Zero adjustments made quickly and easily.
- A spanner wrench is supplied with each micrometer.
- Clear graduations on satin chrome finish.
- Rods and screws are precision ground and lapped.
- Price includes fitted case.

Order No.	Range	Graduation	Base Size	No. Rods
