

Dial Depth Gage

Fowler's Dial Depth Gage comes with six interchangeable rods with a 0—22" capacity. Provides rapid direct reading measurement of hole depths.

Special Features:

- Measurements automatically registered directly on dial face in .001" graduations. The dial indicator can be easily adjusted for zero setting.
- 0-1" travel indicator with 8mm stem.
- The dial indicator has a precision ground hard chrome plated stem.
- Accuracy of the dial indicator meets Federal specifications.
- Rod extensions of 1", 2", 3", 4", 5" and 6" are included. Rods can be connected together for a full 0—22" capacity.
- Knurled bezel is easily adjusted with a clamping screw for positive settings.
- Base is hardened steel, ground and microlapped for accuracy. Other portions of the tool are satin chrome finished.
- Contact point removeable—standard 4-48 thread.
- Chrome plated steel ball contact points.
- Rack spindle and pinions are hardened stainless steel to ensure long wear and continuing accuracy.
- Price includes fitted case.
