

Special Features—#53-422-048:

- The Wyler Magnetic Precision Spirit Level checks and levels cylinders, horizontal and vertical surfaces. Constructed with two prismatics and one flat measuring surface.
- Sensitivity .0002" per 10".
- Insulated handle to prevent transmission of heat from operator's hand.
- Magnets to ensure complete adherence to vertical surfaces of parts and vertical arbors or shafts.
- Operators on milling and boring units, inspectors and fitters work with free hands.
- An extensive view into the vial unit can be observed from above and from either side.
- Vial unit is set into a steel tube in stress free location. Adjusts into the body of the Spirit Level by a fine thread & screw system.
- Defective vials can be easily replaced.
- Price includes wooden case.
- Simple adjustment system.
- Stability of twist to $\pm 5\frac{1}{2}$.
- Fully in compliance with DIN standards.
